

Train Machine Learning Model on IBM Watson

Create Cloud Object Storage:

The screenshot shows the IBM Cloud Object Storage creation page. The browser address bar displays `cloud.ibm.com/objectstorage/create`. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account (Jayapradha B's Account). The main content area is titled "Cloud Object Storage" and includes a "Create" tab. Below the title, there are two infrastructure options: "IBM Cloud" and "Satellite". The "IBM Cloud" option is selected and highlighted. To the right, a "Summary" panel shows the service details: "Cloud Object Storage", "Free", "Region: Global", "Plan: Lite", "Service name: Cloud Object Storage-zo", and "Resource group: Default". At the bottom of the summary panel, there are buttons for "Create" and "Add to estimate", along with a "View terms" link.

Create About

Choose an Infrastructure

IBM Cloud
Create, manage, and access your storage in globally available data center locations. Public cloud environments are designed for high durability, resiliency and security. IBM-managed infrastructure automatically scales to businesses needs.

Satellite
Utilize infrastructure from on-premise data centers, at other cloud providers, or in edge networks as a Satellite location to IBM Cloud. Deploy, manage and control app workloads with IBM Cloud Object Storage on client-managed infrastructure.

Summary

Cloud Object Storage Free

Create Watson Machine Learning:

The screenshot shows the IBM Watson Machine Learning creation page. The browser address bar displays `cloud.ibm.com/catalog/services/watson-machine-learning`. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account (Jayapradha B's Account). The main content area is titled "Watson Machine Learning" and includes a "Create" tab. Below the title, there are two tabs: "Create" and "About". The "Create" tab is selected. To the left, there is a sidebar with service details: "Type: Service", "Provider: IBM", "Last updated: 10/06/2022", "Category: AI / Machine Learning", and "Compliance: HIPAA Enabled, IAM-enabled, Service Endpoint". The main content area has a "Select a location" dropdown menu with "London (eu-gb)" selected. Below that, there is a "Select a pricing plan" section. A table shows the pricing plans: "Plan", "Features", and "Pricing". The "Lite" plan is selected and highlighted. To the right, a "Summary" panel shows the service details: "Watson Machine Learning", "Free", "Location: London", "Plan: Lite", "Service name: Watson Machine Learning-d2", and "Resource group: Default". Below the summary panel, there is a warning message: "Existing Lite plan instance. You can have only 1 Lite plan instance of this service per resource group. Delete your current Lite plan instance in Default resource group to create a new one, or view the existing instance." At the bottom of the summary panel, there is a checkbox for "I have read and agree to the following license agreements:" and a "Terms" link.

Summary

Watson Machine Learning Free

Location: London
Plan: Lite
Service name: Watson Machine Learning-d2
Resource group: Default

Existing Lite plan instance

You can have only 1 Lite plan instance of this service per resource group. [Delete](#) your current Lite plan instance in Default resource group to create a new one, or [view the existing instance](#).

☐ I have read and agree to the following license agreements: [Terms](#)

Create Watson Studio:

The screenshot shows the IBM Cloud catalog page for Watson Studio. The page is titled "Watson Studio" and describes it as a tool for developing sophisticated machine learning models. The "Create" tab is active, showing a "Select a location" dropdown menu with "Frankfurt (eu-de)" selected. Below this, there is a "Select a pricing plan" section with a table of plans. The "Lite" plan is selected, showing features like "1 authorized user" and "10 capacity unit-hours monthly limit" for a "Free" price. A summary panel on the right shows the plan details and a warning about existing Lite plan instances.

Summary

Watson Studio **Free**

Location: Frankfurt
Plan: Lite
Service name: Watson Studio-8m
Resource group: Default

Existing Lite plan instance
You can have only 1 Lite plan instance of this service per resource group. [Delete](#) your current Lite plan instance in Default resource group to create a new one, or [view the existing instance](#).

☐ I have read and agree to the following license agreements: [Terms](#)

Plan	Features	Pricing
Lite	1 authorized user 10 capacity unit-hours monthly limit	Free

Open Watson Studio:

The screenshot shows the IBM Cloud resource page for Watson Studio-i6. The page is titled "Watson Studio-i6" and shows it is "Active". The "Manage" tab is active, showing a "Plan" section. A diagram illustrates the architecture of Watson Studio in Cloud Pak for Data, showing it as a core service in the data fabric architecture. A blue button labeled "Launch in IBM Cloud Pak for Data" is visible.

Watson Studio in Cloud Pak for Data

Watson Studio is one of the core services in Cloud Pak for Data as a Service. Build, deploy and manage AI models, and optimize decisions on IBM Cloud Pak for Data.

[Launch in IBM Cloud Pak for Data](#)

IBM Watson Studio is part of IBM Cloud Pak for Data and serves as the data science capability of the data fabric architecture.
